Specimen Molding

Trust the Materials Experts with Your Test Specimens Molding

Hi-Tech is now offering specimen molding. A new Test Specimen Center of Excellence, utilizing proprietary tools, is producing standard specimens, including large plaques, tensile bars, dynatup discs and more.

Hi-Tech will source the specified material, produce your specimens and provide the processing documentation. Whether it's PEEK or PP, Hi-Tech has experience with a wide array of materials. We leverage that experience and our custom equipment to produce quality specimens to generate dependable test results. Hi-Tech commits to a one-to-two-week lead time from material arrive, so we can support even urgent jobs.

Specimen cost is \$350 per material. If you need more than 150 pieces, you'll receive a custom quote for additional run time.

Hi-Tech can also quote and purchase your materials.

Mold Specimens Available:

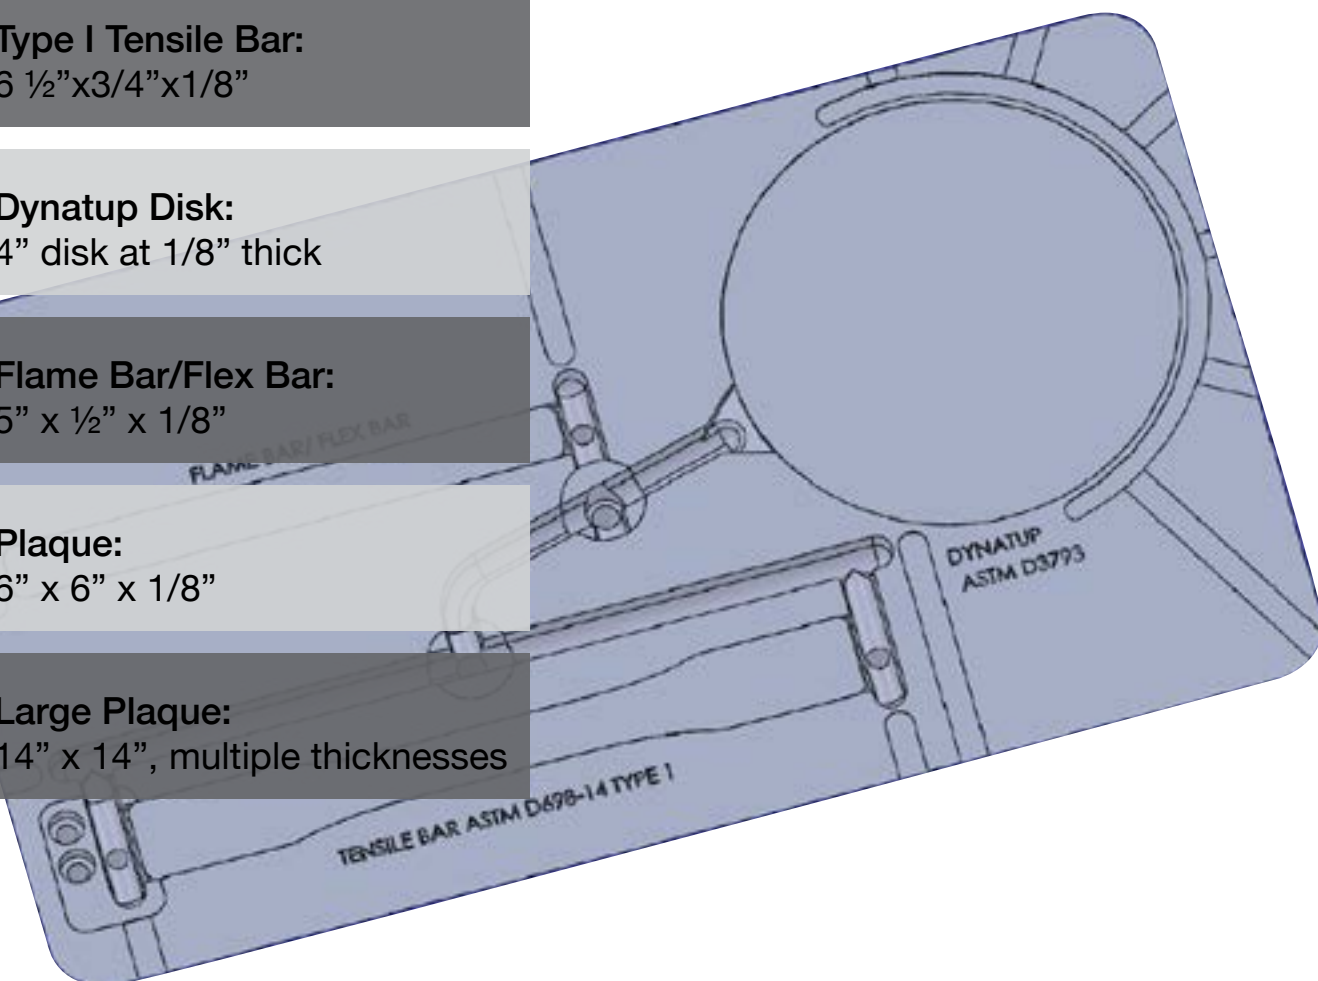

1 Type I Tensile Bar:
6 ½"x3/4"x1/8"

2 Dynatup Disk:
4" disk at 1/8" thick

3 Flame Bar/Flex Bar:
5" x ½" x 1/8"

4 Plaque:
6" x 6" x 1/8"

5 Large Plaque:
14" x 14", multiple thicknesses
